PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance Engineer (B.E. Computer Science, 9.07 CGPA) with hands-on experience in Manual and Automation Testing. Skilled in test case design, functional, regression and smoke testing, defect reporting, and SDLC/STLC processes. Proficient in Selenium WebDriver with Java, TestNG, Page Object Model, Data-Driven Testing, REST API testing with Postman, SQL, and Jira. Familiar with Agile/Scrum methodologies and developing reusable automation test scripts.

TECHNICAL SKILLS

Automation Testing:	Selenium WebDriver (Java), TestNG, Page Object Model (POM), Data-Driven Testing, XPath, CSS Selectors, Implicit/Explicit Waits, Assertions
Manual Testing:	Functional, Regression, Smoke, Sanity, Integration Testing, Test Case Design, STLC, SDLC, Defect Life Cycle
API & Database:	Postman, REST API Testing, HTTP Methods, Status Codes, JSON Validation, SQL Queries, Data Verification
Test Design:	Boundary Value Analysis (BVA), Equivalence Partitioning, Requirement Traceability Matrix (RTM)
Tools:	Jira, Git, GitHub, Apache POI, Excel, Maven

TRAINING & PRACTICAL EXPERIENCE

Pentagon Spa <i>Software Testing & Automation Engineer Trainee</i>	Bengaluru, KA <i>Jun 2026 – Sep 2026</i>
--	---

- Completed comprehensive training in STLC phases, test scenario preparation, test case execution, and defect tracking in Jira.
- Engineered automated browser test scripts using Selenium WebDriver with Java, focusing on robust locators and explicit synchronization waits.
- Validated REST API endpoints using Postman collections, asserting HTTP response status codes, headers, and JSON payloads.

PROJECTS

E-Commerce Automation & API Testing Suite *Automation & Manual Testing Project*

- Designed and executed manual test cases for core e-commerce workflows including user authentication, product search, cart, and checkout.
- Developed Selenium WebDriver automation scripts using Java and TestNG with the Page Object Model (POM), XPath/CSS Selectors, waits, and assertions.
- Performed REST API testing using Postman and implemented Data-Driven Testing using Apache POI and Excel.

FitMe — AI Fabric Estimation & Virtual Trial Platform *Final Year Academic Project*

- Developed an AI-based platform for fabric estimation, body measurement, virtual try-on, and smart outfit recommendations.
- Built responsive interfaces using React.js, HTML5, and Tailwind CSS for measurement input, image upload, fabric estimation, and virtual trial room workflows.
- Implemented image-based body measurement using MediaPipe and OpenCV, with Python/Flask backend functionality for image processing and measurement submission.

EDUCATION

Mysore College of Engineering and Management (MYCEM) <i>Bachelor of Engineering (B.E.) in Computer Science</i>	2022 – 2026 <i>9.07/10.0</i>
GSSS Badriprasad Pre-University College <i>12th Standard (PCMB)</i>	2021 <i>85%</i>
St. Philomena's High School <i>10th Standard</i>	2019 <i>85%</i>

CERTIFICATIONS & ACHIEVEMENTS

- Software Testing / Manual Testing Certification** — Pentagon Space
- Start Career in Manual Testing: Selenium, Agile, Jira & API/Postman** — Udemy (via Infosys Springboard)
- UX/UI Design Certification** — Tutedude
- 2nd Rank** — State Level Mathematics Talent Search Examination (Karnataka Academy of Mathematics)
- Consolation Prize** — Innovation Project Competition, MYCEM · Participated in 3+ Hackathons
